

FUNKTION-ONE

F88

The F88 comprises two Funktion One designed wide band 8" loudspeakers with a passively crossed over 2" coil slot tweeter delivering frequencies above 7kHz. Particular attention has been paid to the arrangement of the drive units to optimise coherency. The F88's 120° dispersion and 98dB sensitivity from 70Hz to 18kHz allows it to be used in numerous applications including under-balcony, theatre, bar/club, cinema surround and AV. The F88 will deliver full range sound in its own right but can be given more authority with the addition of either the Minibass or Microbass.

Features:

- Wide dispersion
- Wide bandwidth
- Funktion One designed 8" drivers
- Excellent clarity and intelligibility
- Rear mounting positions for alternative bracketry
- Funktion One Violet, Silver or Black finishes
- Optional mounting yoke/wall bracket
- Choice of curved, hex punched overall stainless steel grill or individual 8" grills for alternative aesthetics

Drivers	Sensitivity (1W at 1m)	Power (rms)	Nominal Impedance
2x8" 1 x HF Slot	98 dB	150W	6Ω

Frequency Response:	60Hz - 20kHz
Weight:	13 kg (28.6 lbs)
Nominal Dispersion:	120° x 40°
Connectors:	2 x NL4 Speakon
